Marina Re-Use Irrigation Pipeline Installation Project

11/02/17

Dear Lighthouse Point Resident,

The City of Pompano Beach Reuse Irrigation pipeline installation project is commencing. The contractor has been selected and has proposed to begin the project sometime next week. The first phase begins near NE 14th St Causeway in Pompano Beach, runs North to NE 24th St in Lighthouse Point, turns East and runs along Lighthouse Drive (NE 24th St, NE 22nd Avenue and NE 27th St.), past the traffic circle and continues East terminating near NE 26th Avenue. The pipe will be constructed underneath the roadway closing one lane of travel and causing some traffic disruptions during the day. Traffic will be controlled by flagmen, so please heed their warnings and directions to ensure safe vehicular travel and a safe work space for the workers. The contractor plans to install the pipe from the Lighthouse Point termination to the connection in Pompano Beach and will be reaching out to each resident regarding placement of the meter boxes (the meters need to be placed on the same side of the house as the irrigation valves). Some materials and machinery may be stored at Dixon Ahl Park during the Lighthouse Point portion of the project. Typical working hours will be 8am to 6pm excluding weekends and holidays without written consent from the City. The pipe trench will be filled and patched on a daily basis. The trench patch will only be temporary as the project calls for full pavement milling and resurfacing prior to completion.

A map of the project area is available on the City website at www.lighthousepoint.com.
